CREATIVELY I N N O V A T E

In 1994, the **onecera** group of companies marked the inception of their journey into ceramics. After gaining experience galore in various other fields such as textiles, non-woven, minerals and pharma, the Antique group of companies is now embarking on a novel ceramic brand, Evolution.

With about 20 other daughter companies under its umbrella, the sky is the limit for the Antique group. In order to be distinctive and the best at what they do, the company uses state of the art technology without any compromises in the finesse and quality of the products. Using high-end machinery imported from Italy contributes to the Company's success in being one of the best floor tiles and wall tiles manufacturers in the country.

At the House of **onecera** engineered quartz, product, design and innovation are at the heart of everything we do, and our driven team of creative designers and technicians translate current trends and technological advances into commercial and production efficient engineered quartz ranges.

The House of Art, **onecera** unique and extensive product range covers quartz, ceramic, porcelain, glass and natural stone, and we offer diverse range options across wall, floor and multi-use solutions.

onecera is a business to business organisation, and our products are supplied via leading retailers and distributors. We are committed to providing all of our retail and distribution partners with a market-leading customer service across worldwide.

TECHNOLOGY AT IT'S BEST

In order to be distinctive and the best at what they do, the company users state of the art technology without any compromises in the finesse and quality of the product.

Using High end machinery imported from Italy, contributes to the company's success in being one of the best floor tiles and wall tiles manufacturers in the country today.

ONE CERA

KITCHEN

engineered quartz is technical ceramic featuring extra-large sizes and a low thickness, with the characteristics of engineered quartz. These slabs of exceptional beauty and versatility do not fear the ravages of time.

BATHROOM

A material so innovative that it breaks down the barriers between surfaces for architecture and furnishing. Strength plus lightness, very large sizes and a low thickness to make floors, walls, furnishings and finishings. Not just surfaces.

FURNITURE

engineered quartz offers a very rich variety of textural effects so as to always find the right uncompromising inspiration. Each material is a prototype of beauty.

OFFICE

engineered quartz so innovative and versatile that they break down the barriers between surfaces for architecture and furnishing, between indoor and outdoor use. The freedom to design grows, with solutions that were impossible until yesterday.
